### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

**1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:**

**(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.**

**2. Claims 1-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cary et al taken with Wycech et al and Kagoshima et al.**

**3. Applicants' arguments have again been considered relating to the deficiencies of the three references which make up the rejection under 35 USC 103, however it is still deemed that the references on the whole teach the alleged invention. Cary et al teaches the use of the claimed catalyst, substantially water free phosphoric acid (col. 4 lines 40 and 60) and a foaming agent used in the foaming of the claimed liquid epoxy resin (col. 2 line 32 et.seq.) Note that along with the claimed phosphoric acid catalyst used by the primary reference**

**patentees can use the catalysts used in both Wycech et al and Kagoshima et al (Col. 8 lines 1-17 of Wycech et al, col. 3 line 7-26 of Kagoshima et al and col. 4 line 27 et. seq. of Cary et al). In view of the fact that the prior art recognizes that it pays to separate the reactants to prevent premature reaction and to use foamable resin microspheres as set forth in Wycech et al there would be motivation to one skilled in the art to use said foamable microspheres in addition or in place of the foaming agent of Cary et al.**

**4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).**

**A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,**
